

The Project Oceanography staff would like to thank the following people for their help in creating, editing, and presenting the Plankton program materials.

William Hamner, Ph.D.

Doctor Hamner is the Director of the SSWIMS program and a Professor at UCLA in Los Angeles. He received a Bachelor of Arts degree in Zoology from Yale University and his Ph.D. in Zoology from the University of California, Los Angeles.

Peggy Hamner, M.S.

Peggy is the Project Coordinator for the SSWIMS program and a Staff Research Associate at UCLA in Los Angeles. She received a B. A. degree in Zoology and a Master of Science degree in Marine Ecology, both from the University of California, Davis.

William and Peggy have been a research team since 1972. Their research approach emphasizes the use of SCUBA or research submersibles to study individual animals in their own environment and collect undamaged live animals.

Scott Sperber, B.S.

Scott is a middle and high school teacher in the Los Angeles Unified School District. He received a Bachelor of Science degree from California State University of Long Beach and has been in education for 23 years. Scott presently is a consultant for the UCLA SSWIMS program, and he has been involved with the UCLA marine science teacher education program for the past 8 years.
