Live Events on YouTube Directions

1. Connect to the eduroam wifi network.
2. Download Vidiu from the App Store (iPhone). Android does not have an app for this. If you have an Android please visit vidiu.marine.usf.edu when the equipment is connected to the camera and the device is connected to the internet.
3. Within the App: Add a new Vidiu account. Name is Vidiu. IP address is 131.247.136.45
4. Within the App: Username is admin. Password is mividiUn0w   FYI: The (0) is a zero
5. If you are in an Android user you just need to enter the password at this point.
6. YouTube is already connected in the backend and I will have every event populated on our YouTube channel. You just need to select the correct broadcast event.
7. From there you will be able to preview the livestream prior to going live.
